- Netflix vs. Dow Jones Stock Prices

Distribution of Netflix Stocks

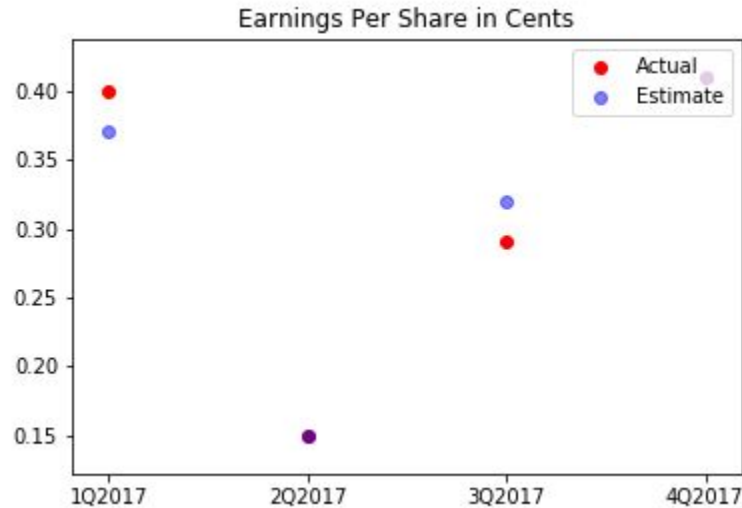

2017 Netflix Revenue vs. Earnings

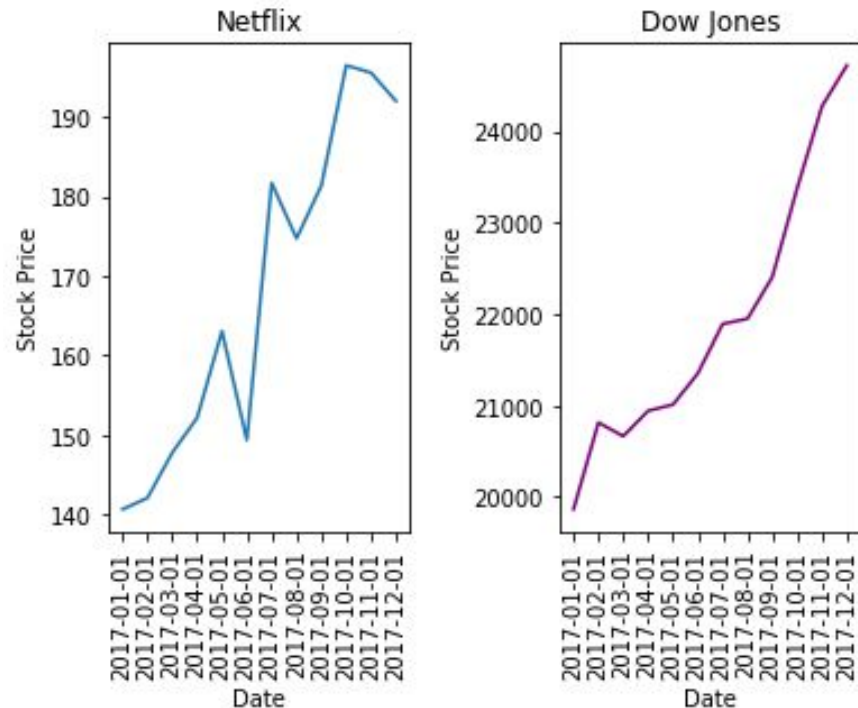

- Revenue and earnings are proportionately increasing as the year progresses.
 - Roughly 5.26% of revenue constitutes earnings for each quarter of 2017.
 - The stock price increased by \$51.25 within 2017.
 - Revenue increased approximately \$12.81 per yearly quarter.
-

Earnings vs. Actual Earnings Per Share

- The estimated earnings is 50% accurate. Two out of the four times has the estimated earnings perfectly matched with the actual earnings - these instances are visible as purple plots.
 - There was a large decline in earnings per share during the second yearly quarter, but has increased since then until it regained its initial earnings per share.
-

Netflix vs. Dow Jones Stocks 2017

Lastly,

Netflix is doing well so far.
